

Each article received at these addresses is revised by two members of the editorial board, selected according to their specific field of interest and to the article's topic. In case a contribution does not fit to the reviewers' specific competences, the journal requests the review of a qualified researcher from the "Iorgu Iordan – Al. Rosetti" Institute of Linguistics, the Faculty of Letters or the Faculty of Foreign Languages (from the University of Bucharest).

If the reviewers agree that the respective contribution fulfils the scientific criteria for being published, they send their remarks to the author; therefore, the author needs to send a new version of the paper. If the reviewers agree that the respective contribution does not fulfil the scientific criteria for being published, they send a report to the author, in which they explain their decision.

Fiecare dintre articolele primite spre publicare este trimis pentru revizie la doi membri ai comitetului, specialişti în subdomeniul în care se înscrie articolul. Dacă articolul este acceptat pentru publicare, autorul primeşte (prin e-mail) observaţiile recenzenţilor, în funcţie de acestea, retrimite textul revizuit. Revizia articolelor poate dura mai multe luni, dar asigură revistei standarde ştiinţifice înalte. Apariţia unor articole poate întârzia ca urmare a faptului că au prioritate numerele tematice.
