

## The tagging systems (MULTEXT-East + Universal Dependencies)

- Multext-East system for Damaskini (3.14. Damaskini Specifications)
  - -> "Simplified" morphological tagset for different Slavic varieties
  - E.g., "Nmsny" -> Noun, Masc, Sing, Nom, Anim
  - E.g., "Vmia3si" -> Verb, Main, IND, AOR, 3, SG, IMPFV

Fig. 3: Saint Petrus Perseus

Fig. 4: Pro Petrus

- Pros:
  - -> total of around ca. 110k tokens, ca. 35 text sources (today) + 50k tokens, 23 texts
  - -> Not too language specific (e.g., Zdravkova 2020, Tufiş/Barbu 2018, Mititelu/Cristescu/Nevaci 2021)
  - -> easily adaptable to other languages (MAC, AROM, ROM, TR, GR)
- Universal Dependencies (Nivre et al. 2017)

## Rede (reunión en Nimega en 1971)

- 2631 Puntos / casas, desde Islandia e Galicia ata os Urais.
- Convivencia de rede de puntos e rede de casas.
  - O consello de Ernest Schüle para a Suíza francófona, seguido por Francia e Italia.
  - Vantaxes e inconvenientes dos dous sistemas:
    - Dificultade para establecer o territorio de cada casa
    - Rapidez / lentitude
    - Resposta uniforme / necesidade de análise e facer escolla xustificada.

## LE FACTEUR TEMPS

- Donc, par le *facteur temps* - la coexistence pendant plusieurs siècles des ancêtres des Ar roumains, des Mégléso roumains et des Istro roumains dans un espace original limité, partagé avec celui des Daco roumains, d'où ils « se sont déplacés » vers les actuels territoires - *dit* le *facteur spatial* - leur situation géographique dans le vaste espace *romain* de l'Empire romain d'Orient, où il y avait un *continuum* *romain* jusqu'au début du VII<sup>e</sup> siècle, lorsque les Slaves ont pénétré au sud du Danube - c'est le *contexte* qu'il faut prendre en compte pour expliquer comment se sont formés les dialectes roumains.

ACQUISITION

1. The first step in the acquisition process is to identify the target market. This involves understanding the needs and preferences of the target audience and identifying the key players in the market. This step is crucial for the success of the acquisition process as it determines the scope and focus of the acquisition.

2. The second step is to conduct a thorough due diligence process. This involves gathering and analyzing information about the target company, including its financial performance, legal and regulatory compliance, and operational capabilities. This step is essential for assessing the risks and potential benefits of the acquisition.

3. The third step is to negotiate the terms of the acquisition. This involves discussing and agreeing on the price, structure, and other key terms of the transaction. This step is often the most complex and time-consuming part of the acquisition process.

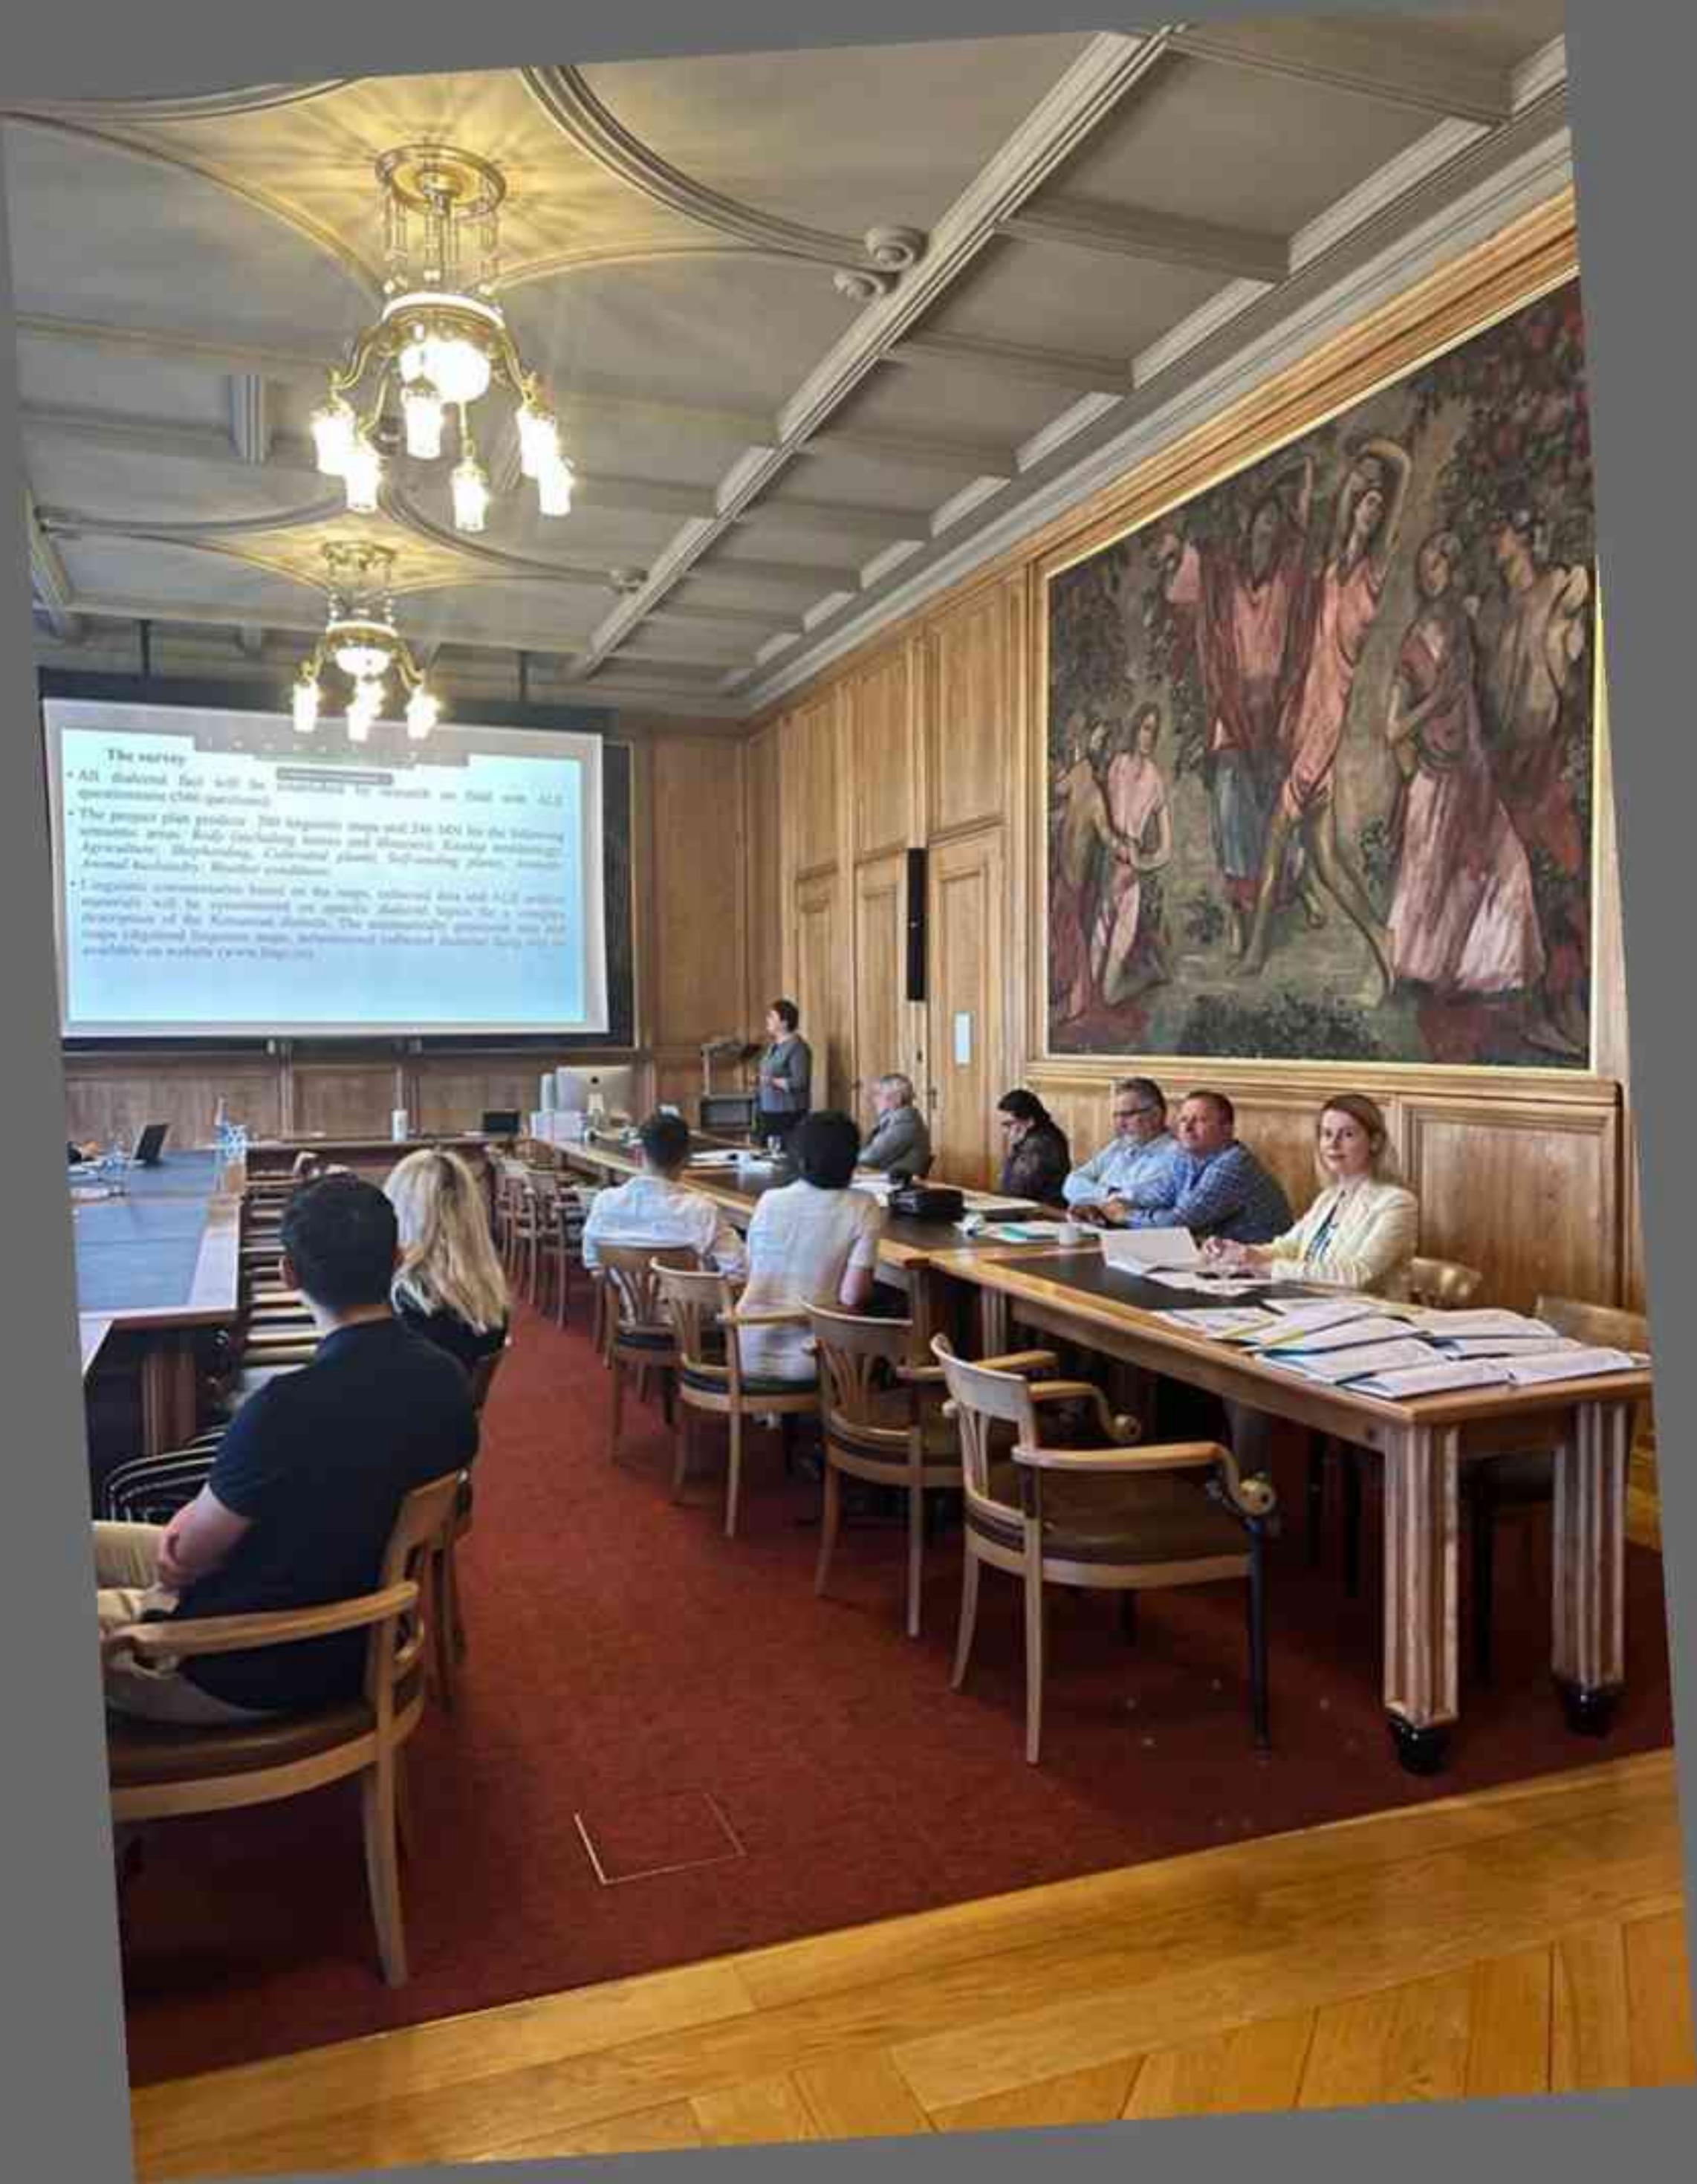

4. The final step is to complete the acquisition. This involves finalizing all legal and regulatory requirements, transferring ownership, and integrating the target company into the acquiring company's operations. This step is critical for ensuring a smooth transition and maximizing the value of the acquisition.

**The survey**

- All detailed fact will be available for research on final with A&E questionnaire (2010 questionnaire)
- The project plan includes the following items and 240 100 for the following sectors: Agriculture, Sheepfarming, Cultural assets, Self-employment, Animal husbandry, Weather conditions
- Longitudinal questionnaire based on the maps, selected data and A&E written materials will be presented on specific national topics for a complete description of the National datasets. The questionnaire process and the maps selected datasets maps, information selected dataset facts will be available on website ([www.dsp.gov](http://www.dsp.gov))

• O experiență de munitat în Arhivele de sezonieri E. Coseriu!  
Felicitări pentru intrarea activă a echipei conduse de J. Kottek și  
pentru conferința de dialectologie!

Adriana Robu  
Zürich, 9 iunie 2023

• O atmosferă kharitō și "casa Coseriană"! E impresionant  
tot ceea ce ne răsună (Coseriu este peșteră tot, nu evagat și  
în schimb).

Adriana Robu  
Zürich, 9 iunie 2023

• O reuniune științifică permisă de la  
teoria coseriană asupra dialectelor României  
nomine care ne-a umplut sufletul de bucurie  
și ne-a deschis vîntul către noi proiecte în  
dialectologie, stăruind deci doi muri studenți și lui  
Eugen Coseriu, N. Saragomandu și J. Kottek. Manuela Născu

Zürich, 9.06.2023

Cu multă umplere am vizitat colecția de sezonieri  
E. Coseriu 9 iunie 2023 N. Saragomandu
